THE Negro Motorist GREEN BOOK

INTRODUCTION

With the introduction of this travel guide in 1936, it has been our idea to give the Negro traveler information that will keep him from running into difficulties, embarrassments and to make his trips more enjoyable.

The Jewish press has long published information about places that are restricted and there are numerous publications that give the gentile whites all kinds of information. But during these long years of discrimination, before 1936 other guides have been published for the Negro, some are still published, but the majority have gone out of business for various reasons.

In 1936 the Green Book was only a local publication for Metropolitan New York, the response for copies was so great it was turned into a national issue in 1937 to cover the United States. This guide while lacking in many respects was accepted by thousands of travelers. Through the courtesy of the United States Travel Bureau of which Mr. Chas. A. R. McDowell was the collaborator on Negro Affairs, more valuable information was secured. With the two working together, this guide contained the best ideas for the Negro traveler. Year after year it grew until 1941 "PM" one of New York's great white newspapers found out about it. Wrote an article about the guide and praised it highly. At the present time the guide contains 80 pages and lists nu-

merous business places, including whites which cater to the Negro trade.

There are thousands of first class business places that we don't know about and can't list, which would be glad to serve the traveler, but it is hard to secure listings of these places since we can't secure enough agents to send us the information. Each year before we go to press the new information is included in the new edition.

When you are traveling please mention the Green Book, in order that they might know how you found their place of business, as they can see that you are strangers. If they haven't heard about this guide, ask them to get in touch with us so that we might list their place.

If this guide has proved useful to you on your trips, let us know. If not, tell us also as we appreciate your criticisms and ideas in the improvement of this guide from which you benefit.

There will be a day sometime in the near future when this guide will not have to be published. That is when we as a race will have equal opportunities and privileges in the United States. It will be a great day for us to suspend this publication for then we can go wherever we please, and without embarrassment. But until that time comes we shall continue to publish this information for your convenience each year.

EXPLANATION

No travel guide is ever perfect with the changing conditions, not only in the world, but also in the United States. The listings contained in this guide are given to you just as it is given to us from its source. There is a possibility that the address might be a few numbers out of the way—or the business has moved, so that by the time you receive your guide, start to use it you will find some discrepancies. This is due to the fact, from the time that the guide goes to press until you get it a few months have passed and many changes have taken place in the business world. This we can not help and we don't want you to get the idea that this guide is of no value; we try to have it as correct as possible. Each year these listings are checked before we go to press.

Our guides are published for every one, hence we have supplied you with any number of places in cities and towns so that one can select what they want within their price range. We do not recommend any of these places, although hundreds of them could be. But due to the thousands of listings, it is impossible to inspect all, so we leave it to your decision. We would welcome letters from you giving the name and address of any place that you feel that isn't up to our standards of a first class business place. They will be removed, which would give not only you, but other travelers the benefit of only first class places.

In order that you won't find any difficulty in finding the kind of business that you are looking for, we have placed the listings under their proper classification in cities and towns.

REPLIES FROM OUR CORRESPONDENTS

It is the purpose of the Green Book to give to the traveling public as many places for convenience and comfort as possible, and in our endeavors to give better service through our guide, we sent correspondents to various cities throughout the Western United States. The response we received were warm, generous and frank. Several of the replies are printed below so that YOU, our reader, may judge the results of our efforts.

From GORDON, NEBRASKA, our correspondent states:

"No Negro families here—likely could stay at Cabin camps. Do not know attitude of hotels. Yellow Cabins—Gordon, Neb., would take Negroes."

From DEVIL'S LAKE, NORTH DAKOTA:

"We don't have any Negro families living in our city or community and consequently would have no occasion to offer housing, etc., to the Negro. I believe if Negro travelers were to pass thru Devil's Lake,

IN PATRONIZING THESE PLACES

they would be treated as well as anyone else. The situation has never presented itself to this community to my knowledge, and therefore I am at a loss as to what they would encounter in this vicinity."

From SHELBY, MONTANA:

"Our very limited facilities have been taxed to the limit the last couple of years in trying to give adequate service to the touring public. Upon consulting with some of them, who may well represent the rest, they believe Negro patrons have a right to fair consideration, but they would hesitate to place their names in your directory for fear of finding all touring Negroes near here over-crowding the facilities to the exclusion of old customers. A pretty reasonable attitude exists here, but we have had so few colored people in this area that I would hesitate to say to what extent many more would be at liberty to come and go without running into difficulty."

It is our belief that the following letter is the best and most sincere reply so far; expressing the very crux of the situation. It touches on every phase of the idea of what is trying to be done in various fields towards a better understanding between the races.

From DICKINSON, NORTH DAKOTA:

"There are no Negro families in Dickinson, and there are few Negro tourists in this vicinity.

"There are two reasons why I hesitate on your correspondence. One is that if I list one place of business I would be discriminating against another. Another is that several places of business, while they are glad to provide for Negro customers, do not care to advertise for Negro trade.

"The attitude of a majority of those I contacted was that, while they themselves had no color prejudice, some of their regular customers did have. This was the impression I gained from hotel operators, barbers, and others contacted. They were all eager to provide whatever services were required by Negroes visiting Dickinson.

"Ignorance is the root of prejudice. There is a special type of ignorance in this section regarding Negroes. There are so few Negroes living in North Dakota that a colored person is still a curiosity. Some of the prejudice here is merely unfamiliarity with any of the race. It is a general thing, and not specific. When talking about Negroes abstractly, they feel differently than if a colored person, in person, asks them for services.

"Upon occasion, Negroes have been accommodated in Dickinson hotels. However, a Negro tourist would have an easier time getting accommodations at Dickinson's motels and in several tourist camps. North Dakotans, generally, are friendly, and I am sure that a Negro tourist would be pleased with his reception in Dickinson.

"Just west of Bismarck, in the Badlands, is the newly created Theodore Roosevelt National Memorial Park. The park area is one of wondrous scenic beauty and contains several historic sites, a petrified forest, and other attractions. Elsewhere in the state are many

worthwhile places to visit. For instance, north of Bismarck, the Garrison dam is under construction. This is to be the largest rolled earth filled dam in the world. I should like to urge Negroes to visit North Dakota, not only for the tourist attractions, not only because of the friendliness of her people, but also because of these visitations would enable North Dakotans to better know and understand a great part of our national citizenry."

We have reprinted these replies to give the readers of the Green Book an idea of what we are trying to do to aid them in their travels. Each year through one method or another we are making the Green Book America's first and best guide. Many thousands are using our guide with confidence and satisfaction.

KELLER CARS

A new car in the automobile field designed on a new principle, whose price is low and is of interest to everyone who wants a new car or who is contemplating turning in their old car for a new one.

Twenty-four months of precious post war marketing time and many thousands of miles of vigorous road testing and trials have gone into the development of a new automobile, privately shown recently to members of the Press, Radio, entertainment and business world. This special preview of the new Keller "Chief" and "Super Chief", new size automobiles, presented by Keller Motors Corporation of Huntsville, Alabama, precedes the first public showing of these surprising cars in the main lobby of Hotel Pennsylvania from October 21st thru Sunday.

George D. Keller, President of the company bearing his well known name in the automobile industry, presented a very convincing set of facts, bearing out his company's contention that they have made a basic automotive engineering contribution to the future of automobiles. A development as important as when pneumatic tires were introduced generations ago, because it brings to automobile transportation more comfort, more safety and greater economy. To be more

specific, Mr. Keller pointed out for the first time in an automobile their "Chief" and "Super Chief" are equipped with a new type of wheel suspension, each of the four wheels being independently sprung completely "cradled in rubber." These are the first cars to have the chassis suspended at points lower than the center of the wheels. This in turn produces a car with the lowest center of gravity available in this country today. Yet, there is standard road clearance height designed into this new type of ride. Independently sprung wheels, "*cradled in rubber*" means "no springs," (transverse, longitudinal or coil). The suspension is rubber, bonded to metal producing startling results, no lubrication and no metal to metal contact of moving parts. This new design gives to this 92" wheel base, new size car, a smooth floating ride. No longer is long wheel base essential to provide good riding qualities.

This "*cradled in rubber*" innovation provides an amazing new development in motor car design. Road

IN PATRONIZING THESE PLACES

Keller "Super Chief" Convertible cradled in rubber. An unbelievable smooth ride, three passenger, 92" wheelbase, 49 h. p. engine mounted (optional) rear or front with chassis that performs like a thoroughbred.

Keller "Super Chief" Station Wagon. 92" wheelbase, five passenger, with sufficient space between rear seat and tail gate to haul luggage, fishing, hunting and golf equipment, or carry supplies for the farm or country home.

shocks are cushioned in a pillow of rubber producing shockless steering. No front end bushings to replace; eliminates the tiring necessity for steering wheel grip on rough roads.

ABE JENKINS, NOTED RACING DRIVER, IS SHOWN JOUNCING THE "CRADLED IN RUBBER" KELLER SUPER-CHIEF AUTO AT ITS SPECIAL SHOWING IN THE HOTEL PENNSYLVANIA IN NEW YORK. THIS NEW ENTRY IN THE SMALL-CAR FIELD—92 INCH WHEEL BASE—HAS ALL FOUR WHEELS INDIVIDUALLY SUSPENDED IN A VERSION OF THE B. F. GOODRICH TORSILASTIC SPRING (THE TORSION ARM OF THE LEFT-REAR SPRING IS THE WHITE, FLAT MEMBER DIRECTLY BELOW JENKINS' HAND). THE STRIPPED CHASSIS SHOWN HERE IS ONE ON WHICH THE ENGINE IS MOUNTED IN THE REAR; THE RADIATOR ACTUALLY FACES THE REAR OF THE CAR BUT IS MOUNTED AT THE SIDE OF THE MOTOR. A STATION WAGON AND A "TRUE" CONVERTIBLE WERE ALSO SHOWN.

The wheels are pulled gently over bumps instead of being pushed abruptly into them.

Keller Motors Corporation comes to town establishing a post war precedent in that they brought for their showing a multi-colored, attractive rear engine mounted show chassis—a tulip cream and green colored show convertible and a station wagon, making a very attractive showing at the Hotel Pennsylvania.

They are placing much emphasis on the "cradled in rubber" feature and have a test chassis in their exhibit to show exactly how the spring action works. This chassis has traveled many thousands of miles and hauled hundreds of different people.

Their engineers have developed a very ingenious method for setting the engine fore and aft. The convertible carries the engine mounted in the rear. A model to come later will be a Package Delivery Car, an ultra-swanky unit for light deliveries. This model will carry engine in the rear—with package compartment in large front space where engines are usually located. Only one seat is provided for driver.

LINE OF MODELS

Keller Motors Corporation has already acquired facilities for production of Station Wagon Bodies complete. Officials are planning early production of this model ahead of the Convertible, because with completed station wagon bodies, Kirk-site dies can be used in forming the sheet metal for the front end of this model because there is much less sheet metal used on this car. Meanwhile work will progress rapidly on the dies for metal body parts of the convertible back of the windshield, and also on permanent dies for all Cars.

When this is accomplished the third model can be brought into the line almost immediately, namely, the Keller Chief and Super Chief, ultra-swanky Delivery Car. This car is produced by omission of the doors with only one seat for the driver and with engine mounted in the rear. Luggage and package compartment is located in front in space where engines are located in most cars.

Thirty-five miles to the gallon is claimed for these cars. Tire sizes are 6.00 x 12. These cars have been engineered throughout with the thought of standardizing all parts, both for the availability of the items now, as well as for service owners, and the quite important point of keeping tooling expenses to the absolute minimum.

Mr. Keller said, "Our factory facilities in Huntsville are ideally suited for our assembly purposes. Our buildings and space acquired from the U. S. Government Engineering Corps, contain two of the largest buildings of the Huntsville Arsenal, with offices 700 feet long, trackage on both sides, and loading docks for trucks. We are only a short distance from docks on the Tennessee River from which we can ship cars by

barge to all points on the Mississippi and Ohio Rivers, and by boat to the East Coast, export or through the Canal, to the West Coast. Supplies can come to us via the same routes."

"Our prices will start at \$848.00 on today's cost estimates. However, it is our intention to control car deliveries and eliminate black and grey markets on our products, and to accomplish this it may be necessary to raise our prices to whatever extent necessary for our factory to be in command, and thus control the new car retail delivery situation which apparently is now out of control in many quarters. One other company is handling the situation quite successfully. You find few, if any, of their new cars in the hands of unauthorized dealers at Black Market Prices."

These cars have been in the course of development for about two years. Approved mechanical design has been under test ever since the latter part of 1946. Ab Jenkins, former Mayor of Salt Lake City, and holder of more speed records than any other man, is in attendance in the Hotel Pennsylvania. Jenkins is expected to set some new records in Salt Lake Flats within a very short time.

THE TUCKER '48

The Tucker '48 is a radical departure from anything yet produced by the automotive industry but engineering features which it incorporates have been tested and proved for many years on the Indianapolis Speedway and elsewhere.

The engine, located in the rear of the car, is a flat simplified type with six opposed cylinders, developing 150 horsepower. The cylinders lie on their sides - three on each side of the center crankshaft.

The ignition system, backed by a 24 volt battery, delivers a more effective,

more lasting spark. All the gas in the cylinder is ignited every time, giving maximum efficiency.

Valves in the Tucker '48 are hydraulically actuated by oil under pressure. In the event that the oil supply falls below its proper level, the engine stops automatically, preventing the burning out of bearings or other vital parts.

The engine is cooled by a special agent, sealed-in at the factory. No anti-freeze is needed in winter nor will the engine overheat in the summer due to evaporation.

The brakes are the single disc type, similar to those used to stop fast landing military planes without skid or turn. Conventional shoe brakes operate with a high frequency succession of grabs and releases. When an emergency stop must be made, passengers are thrown forward. With the Tucker brakes, however, there is a gradual and increasing application of friction. Even on fast stops, passengers will not be thrown dangerously forward. The brakes are aluminum, are air-cooled and have $2\frac{1}{2}$ times the braking surface of those on conventional cars.

Wheels of the Tucker '48 are suspended individually. Two flat arms are fastened to each wheel, cushioned in rubber, which permits absorption of shocks at their source. This System tends to eliminate any tendency for the car to weave at touring speeds.

It is almost impossible to skid the Tucker, either when braking or applying power, regardless of the weather conditions. The over-all design distributes weight to give precision balance and insures complete four wheel traction in braking.

Safety is the keynote of design in the Tucker car. Engineers carefully studied accident records and designed the car for maximum protection against unavoidable smash-ups. For example, the record showed 90 percent of all collisions are slanting blows. So the frame of the Tucker '48 was built to completely surround the passenger compartment.

Danger spots in conventional automobiles also include the windshield and the instrument panel, which are responsible for 85 percent of all face injuries. In the Tucker car, the conventional instrument panel is replaced with an attractive sponge rubber crash board cowl. All the driving instru-

ments are located on the steering column itself.

The Tucker windshield is made of safety glass, mounted in a rubber fastening. A hard blow from within will knock it out in one piece. If the glass should break, it won't shatter into sharp, cutting slivers, but into small gravel-like pieces.

A spacious luggage compartment is found in the front of the car - the space occupied by engines on conventional cars. A safety steel bulkhead behind this compartment shields the passenger compartment from head-on collisions far more effectively than the conventional front engine. The driver and front seat passengers can drop into a spacious safety chamber protected by the steel bulkhead in the event of an impending collision.

The Tucker '48, although it has a 128-inch wheelbase and an overall length of 210 inches, weighs but about 3,000 pounds because of an extensive use of aluminum in body and engine construction.

The car stands about $60\frac{1}{2}$ inches from road to roof, but has 38 inches of head room in the front seat and 36 inches of clearance in the rear seat.

The front tread of the Tucker '48 is 62 inches and the rear is 65 inches.

The Tucker '48 is being built in one of the largest factories in the world, the plant which formerly produced B-29 engines on Chicago's far south side. It was acquired from the War Assets Administration by the Tucker Corporation a few months after the government began disposing of its surplus war property.

Assembly line production is scheduled to begin about April 1.

WHERE ARE YOU GOING TO STOP?

By James A. Jackson, Special Representative of the Esso Marketers

Most of the people of America are able to answer that question which so often arises when conversation includes the mention of where one may be going, however, for the Negro traveler, the answer too often has been "Oh, I don't know yet, but you can always find some place."

Or maybe, in response to the suggestion, when a trip has been mentioned, the expectant traveler is obliged to state that "I would like to stop off and see that place, I have heard so much about it, but I don't know anyone there and I wouldn't know where to stop."

Even the person required to go hither and thither on business, sometimes makes his trip filled with apprehension, unless he happens to know some more experienced traveler or tourist, who happens to know some addresses and more often than not, because of the lack of definite address, exhausts much of his time locating a place to serve as his temporary "home away from home".

In past years, the Negro Traveler, either tourist or business traveler, has spent more money per day or used more time, maybe both, thus making his travels more expensive than the same milage would cost other people.

It makes little difference whether one is transported by car or train, or even by plane, he needs to know where to lay a weary head when nightfall comes.

His home and office needs to know where he may be found when he goes forth. He needs to be free from calling twice each day at a general delivery window for possible mail, often needlessly wasting time there in a long line.

Those are the handicaps Victor H. Green has been trying to solve for his people for the past eight years. His successive issues of the Green Book for the Negro traveler hav been consistently becoming better with each issue. Today, our thousands of travelers, if they be thoughtful enough to arm themselves with a Green Book, may free themselves of a lot of worry and inconvenience as they plan for a trip.

The Esso Marketers Public Relations men of the race group have been using the Green Book for all the years of its existence and have been impressed with its usefulness, that we have devised a way to help Victor H. Green Co. obtain a more widespread distribution, and our own customer friends to be more certain of finding accomodations when they get there, wherever they may be going.

The segregated group in American life can no more than others be expected to know where hotels may be found, where tourist homes and camps or cabins exist, or where restaurants available to them are to be found, than can other people. Those other peoples have long had provided such information services. Tourist agencies and Guide publishers have been at their service for these many years.

PLEASE MENTION "THE GREEN BOOK"

As a group we need more hotels and kindred services, as we constitute a substantial segment of the traveling public. Because the places of accommodation to adequately serve this tremendous volume of potential business are still too few in number, it is all the more necessary that homes, hotels, etc. open to serve us, should be known.

JAMES A. JACKSON (SEATED) AND WENDEL P. ALSTON, SPECIAL REPRESENTATIVES OF THE ESSO MARKETERS IN THEIR NEW YORK OFFICE

That's why Esso is glad to make our customers acquainted with the Green Book which enables them to go farther with less anxiety and more pleasure, thereby obtaining greater satisfaction from their travel and making more amiable patrons of our own business of supplying gasoline and lubricating oils for their tours when in our territory.

With Esso products, your car will take you there and bring you back, while the Green Book tells you where you may stop while there. Bless the Green Book and its service.

When contemplating a trip, you should write Victor H. Green, 200 West 135th St., New York City for his Green Book, and to the Esso Touring Service for road maps and route directions.

COMPLETE EDITION

Even Off Subways, Negroes Follow the Green Line

If you're traveling you don't have to worry about accommodations—whether this place will take you in, or that place will sell you food. That is if you're white and gentle. If you're not, you have to travel a careful route like seeking oasis in a desert.

The Jewish press has long published information about places that are not "recommended." Less is known, however, about the Negro and his problems of this kind.

Five years ago Victor H. Green of 938 St. Nicholas Ave., returned from a motor trip on which he had found Negro discrimination in many places. He decided to do something to make traveling easier.

In the 1941 issue of his *The Negro Motorist Green Book*, he lists more than 450 hotels and 700 tourist homes that will treat Negroes like human beings. Cafes, beauty parlors, restaurants, night-clubs are also listed.

This is the book's fifth edition. Each year 15,000 Americans buy a copy so they won't run into embarrassing or dangerous contact when they travel.
