## INTRODUCTION

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon.

There are thousands of places that the public doesn't know about and aren't listed. Perhaps you might know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists.

You will find it handy on your travels and up to date. Each year we are compiling new lists; as some of these places move, or go out of business and new business is started.

All of our Advertisers have been selected with care and are the best representative and responsible in their field. One will always find them willing and ready to serve the best that there is.

When you are traveling mention "The Green Book" so as to let these people know just how you found out about their place of business. If they haven't heard about This Guide, tell them to get in touch with us.

If this Guide is useful, let us know, if not tell us also, as we appreciate your criticisms.

If any errors are found, kindly notify the publishers so that they can be corrected in the next issue.

Dear Sir;

It is a great pleasure for me to give credit where credit is due. Many of my friends have joined me in admiring at "The Negro Motorist Green Book" is a credit to the Negro race. It is a book badly needed among our Race since the advance of the motor age. Realizing the only way we knew where to go to reach pleasure resorts was in a way of speaking, by word of mouth until the publication of "The Negro Motorist Green Book." With our whole of your success, and your earnest efforts. We earnestly believe "The Negro Motorist Green Book" will mean as much if not more to us as the A. A. A. means to the white race.

Respectfully yours,

Wm Smith.

## JAMES A. JACKSON

By E. Frederic Morrow  
Branch Coordinator, N.A.A.C.P.

The Standard Oil Company of New Jersey, one of the largest business enterprises in the world, created a sensation back in 1934 when it announced that James A. Jackson had been retained as a special representative to conduct research and promotion work in the Negro market. This forward step by big business was welcomed by the colored public.

James A. Jackson's whole colorful life has found him advancing from one constructive position to another, each with greater potentialities for service than the last.

He started out in life as a waiter, bellboy, dining room employee, and minstrel performer in the early days. He was the first Negro bank clerk in Illinois then employed by Jennings Real Estate and Loan Company, Chicago. This was in 1904.

During the World War he was commissioned Adjutant of the First Provisional Regiment, as the Fifteenth was originally known when it was organized. He was the only one of two Negroes ranking as Agent-In-Charge, U. S. Military Intelligence, during the War.

In 1933, Mr. Jackson resigned as Business Specialist from the U. S. Dept. of Commerce in Washington, D. C. On April 7, 1934 he accepted the position as Special Representative with the Esso Marketeers, the selling organization of Standard Oil Company of New Jersey and its affiliates, which comprises the Standard Oil of Penn., The Standard Oil of Louisiana and the Colonial Beacon Oil Company, Inc.

As special Representative his duties are with the advertising and Trade promotion depts., with some joint services to the Market Research Dept. covering about 25,000 miles a year in the interest of his company. Of the 830 Dealers in the Country 312 are Negroes.

These companies operate in eighteen states, and by arrangement for exchange of courtesy cards, recognition with fourteen other oil companies enables customers to travel over the whole of the United States and Canada on the courtesy cards of their issue to patrons qualifying for credit consideration.

The Standard Oil Company of New Jersey has given every reason for the Negro to look upon the Company and its affiliates with favor.

The company accords courteous service, and members of the race have found employment in positions of consequence and responsibility.

HOW TO KEEP FROM

GROWING OLD

Always race with locomotive to Crossings. Engineers like it; it breaks the monotony of their jobs.

Always pass the car ahead on curves or turns. Don't use horn, it may unnerve the fellow and cause him to turn out too far.

Demand half the road—the middle half. Insist on your rights.

Always speed; it shows them you are a man of pep even tho an amateur driver.

Never Stop, look or listen at railroad crossings. It consumes time.

Always lock your brakes when skidding. It makes the job more artistic.

In Sloppy weather drive close to pedestrians. Dry cleaners appreciate this.

Never look around when you back up; there is never anything behind you.

Drive confidently, just as tho there were not eighteen million other cars in service.
