FOREWORD

No travel guide is perfect. Changing conditions, of course, contribute to this.

The listings in this Guide are carefully checked. Despite this, past experiences have shown this from the time we check to the time you use our guide, changes have been made. Therefore, may we emphasize that these listings are printed just as they are presented to us. We would like you to understand that the publishers cannot be responsible after this check has been made.

If you should experience unpleasant or unsatisfactory service at any of the places listed, you will do our fellow traveler a favor by reporting this place to us.

INFORMATION

In planning your trip or tour, secure a road map from your local service station for the trip you expect to take. Plan your trip from this map, noting the route and cities you expect to pass through. Then you can make note of the accommodations in these cities in case you might want to stop over. No maps are published in our guide as they would not be large enough for your convenience.

DON'T BE DISAPPOINTED — Make reservations in advance. State date of arrival, number of persons in your party adults or children and the number of single or double beds required. After confirmation of your reservation get rates and send one night's lodgings to be certain reservations are held.

★Denotes The Travelers' Green Book recommended Hotels, Motels, Tourist Homes, etc.
(Omission of ★ does not necessarily mean inferior accommodations.)

The publishers make every effort to assure the accuracy of the "Green Book" editorial information, and to maintain the high character of its advertising pages. We cannot however, accept responsibility for inaccuracies in editorial or advertising matter. Where rates are quoted, they are subject to change.

"PROJECT . . . FUN"

Novera C. Dashiell

Tensions created by the conflict between East-West ideologies and resultant threats of nuclear warfare, have caused varying degrees of behaviorism in our nation. President Kennedy has told us that our generation, and possibly the next must expect to live on this edge of fear rather than bow to the will of demagogues. To survive, we must be constant to our national goals and ideals on all levels. In our opinion, just as a good vacation provides respite from a tedious or demanding job, so must recreation and travel serve as a safety valve to our collective sanity. A vacation now can be regarded as not only necessary, but of therapeutic value. Exchange of travel should also create better understanding between the peoples of the world. Fear is an emotion we experience only of the unknown.

This writer is the only member of our staff who is still earthbound. The American Medical Association assures the public: "If you can walk, you can fly." Travel by air is found to be the best and fastest mode of transportation. Particularly if your vacation is for a limited time, or, business appointments must be kept on short notice. Pressurized cabins of airlines have minimized the possibility of complications for even the traveler who suffers from controlled sinus, diabetes, asthma or heart disease. For the earthbound like myself, thank goodness, there is still excellent transportation by car, bus, train and boat.

In this jet-age, when travel to different climatic areas in a few hours is possible, the clothing designers have become the travelers' best friend — next to the travel agent of course. Ensembles in 'layers' to make your own costume and create your individuality has been developed to a fine art. The co-ordinated look is out. Separates, in the neutral colors of the Classics are back. Camel, grey, black and white glen plaids, rust and moss; these colors can also be combined. Starting with a basic dress, (it can be the little 'nothing' dress) ending with a tweed or leather fleeced-lined coat; sleeveless suede jacket or jerkin, maybe a sweater-jacket. Considering your ultimate destination, a pair of light weight tapered slacks. This outfit can jet thru space and meet any climatic and social occasion by simply adding or subtracting. For evenings in the tropics, a stole of fabric or wool, colder regions one of the fur of your choice.

You must plan and save toward a vacation. An haphazard vacation is no fun. Take with you a genuine interest, an open mind — leave the critical one at home — and most important take MONEY. Preferably American Express Cheques. They also provide a World-Wide Credit Card service. If you go overseas, travel lightly. You'll be surprised at the beautiful articles of clothing, jewelry and perfumes you may purchase at a minimum. For the woman who loves exquisite things for the home, there can be found bone china, silverware and crystals sold tax free on the Open Market. If your purchases are to be shipped later, be sure to tell Customs about it on your return so their value be declared toward your exemption. Your conscience need not bother you about purchases overseas. Our government has relaxed its travel restrictions to this country. The Europeans will be spending as much here as you will abroad.

The off-season rates for travel to Europe start in October and ends in March. This period is an ideal time. You'll get the opportunity to meet more people as individuals rather than during the hectic tourist months. For the musically minded, the exciting ballet, opera and theatre season opens then. For the fashion conscious woman, some of the famous designers of Paris show their collections in January. Gastronomically, gourmets and even gourmands take note, Paris is hard to beat. Max Lerner the American philosopher, said we are living in a time of the Americanization of Europe. We know a number of our race who have a long standing love affair with the tempestuous city of Paris. Their hearts have lingered there long after they have returned home.

If time does not permit you to travel to far away places, there is always the Caribbean. From New York or Florida, you may visit the sun-drenched islands of Bermuda, Barbadoes, Trinidad, to mention a few. Also not forgetting Little Switzerland of the Caribbean — the Virgin Islands. For sheer relaxed pleasure, may we suggest taking one of the cruises offered by various Steamship Companies. One can figure on the minimum of \$25.00 per day. You 'live' on the ship. The companies make special effort for your comfort and entertainment. Where you are going is secondary to how you are going there. Perhaps you are the adventurous type and want to get away from the well beaten oft-traveled track. If you are, ask the Green Book or your travel agent for a list of the smaller little known islands in the Caribbean. They offer attractive accommodations at lower rates along with almost personalized service. They are able to do this because they are bypassed by the mass of the tourist traffic.

Still nearer home, is Canada, our neighbor to the North. The province of Quebec is famous for winter sports and festivals. Ottawa, the capital city of Canada, and site of its government is situated in the province of Ontario. Tours are conducted of most of its legislative and historical buildings. The mountains and lake regions of this same province provides excellent game for the hunter and the fisherman. Further west are the beautiful cities of Manitoba, Saskatchewan and Winnipeg.

Maybe you have often wondered why people attend bullfights. What is the motivation? Well, on a Sunday afternoon in Mexico City, just follow the crowd to the 'corrida' and satisfy that curiosity. There you are likely to see some of the world's greatest matadors display their skill at this intriguing sport before delirious spectators. If bullfights leave you cold, there is racing in the huge Hipodromo de las Americas said to be one of the most beautiful on this Continent. Over 50,000 Americans live in this city, so language will be no problem. Again here as in Europe, is the patina of the Americanization process on a culture which is predominantly Spanish-Indian. You'll notice this in the clean modern lines of the new apartment houses and office buildings. In the smart supper clubs and the outlying beaches. However if you are seeking the 'real' Mexico you will find it in the markets where bargaining is an advanced technique. In the incredibly beautiful "Floating Gardens of Xochimilco", the elaborately carved facades of the Churches and Cathedrals. The colorful religious festivals and processions which are almost a daily occurrence.

Wherever you may decide to spend your vacation, near or far, may we extend our best wishes for a safe, enjoyable and healthy one. Pray that we all enjoy a peaceful world with our loved ones.

HAMPTON HOUSE AND VILLAS

MIAMI, FLA.

Harry Markowitz, prominent Miami builder and businessman, announced today the completion of a multi-million dollar five-acre resort area project, the Hampton House Motel and Villas, 4200 N. W. 27th Avenue, Miami, Florida.

The all-new Hampton House, known as "the Social Center of the South," has been completely redecorated and refurbished, providing one hundred individually air-conditioned rooms, a fresh water olympic-size swimming pool surrounded by lush tropical foliage and a large sun deck area. An air-conditioned convention hall is designed to meet the needs of organizations, offering guests a choice of European or Modified American Plan.

The modernization program included the addition of many large kitchenette apartments, with complete cooking facilities and spacious accommodations for families. For those who prefer "non-cooking" vacation, the elegant Palms Dining Room offers an exotic atmosphere and superb American cuisine.

The Napoleon Lounge, new intimate supper club, features an Island decor and is fast becoming one of the most fashionable retreats in the Miami area. New star-studded revues are featured nightly and include the music of the Myrtle Jones Trio, the talents of Napoleon Reed, Broadway singing star, calypso dancing and many exciting acts.

Just ten minutes away from Miami's International Airport, the Hampton House caters to the Negro vacationer who enjoys luxurious surroundings, superb cuisine and an exciting sports and entertainment program designed for all ages. For enthusiasts of golf, the Hampton House is conveniently located to golf courses. Swimming, boating and fishing are just minutes away at Miami's Virginia Beach.

For both large and small convention groups, the Hampton House provides ideal facilities, with its studio suites, meeting rooms and adaptable convention hall.

SLOW DOWN AT INTERSECTIONS—

You may find a stalled car there . . . or a pedestrian who has slipped and fallen . . . almost anything can happen. Think ahead, be alert, slow down.

Take a tip from the truckers—

Carry at least three 15-minute fuzees in your car. If you stop at night by the roadside to change a tire — Light the fuzees, stick them in the ground about 100 feet away. Their red glare means danger, avoiding the risk of collision!

NEW YORK, NEW YORK

New York, the largest city in the United States and the second largest in the world, is in southeastern New York State, at the mouth of the Hudson River. Washington, D. C., is 230 miles south, Miami 1,340 miles south

and Los Angeles 2,875 miles west. New York has had a colorful history, starting with its discovery by Henry Hudson at the beginning of the 17th Century. In 1626, the Dutchman, Peter Minuit, made one of the most remarkable real estate deals in history when he purchased Manhattan Island from the Indians for a reported \$24 worth of trinkets; real estate values have increased considerably since then. Sponsored by the Dutch West India Company, the young colony, called New Amsterdam, got off to a good start and because of its excellent location as a seaport, prospered immediately. In 1664, in support of complicated territorial claims, the English seized the settlement and renamed it New York in honor of Britain's Duke of York. In return, the Dutch were given a free hand in Surinam, which the English had begun to colonize. War broke out again between Britain and the Dutch Republic and in 1673 a Dutch fleet returned to New York and captured it, renaming it Fort Orange. At the cease of the war in 1674, the town was relinquished to Britain under whose rule it prospered once more. During the American Revolution, New York remained in British hands until the end and it was there that George Washington was inaugurated as first President of the United States. Today the city is perhaps the greatest port in the world and the financial, intellectual and artistic center of the Nation.

STATUE OF LIBERTY

Boats leave Battery, Monday through Sunday every hour on the hour — 9 A.M. to 4 P.M. (IRT Lexington Avenue to Bowling Green; BMT to Whitehall Station.)

HAYDEN PLANETARIUM

Sunday is a good day for a visit to the Hayden Planetarium (85th St. and Central Park West), where you can see an extremely interesting show for a modest charge of about 75¢. The entire performance takes about one hour and is definitely worthwhile. Phone before going there to check on starting time.

HOW TO KEEP FROM GROWING OLD

Always race with locomotive to crossing. Engineers like it; it breaks the monotony of their jobs.

Always pass the car ahead on curves or turns. Don't use horn, it may unnerve the fellow and cause him to turn out too far.

Demand half the road — the middle half. Insist on your rights.

Always speed; it shows them you are a man of pep even tho an amateur driver.

Never stop, look or listen at railroad crossings. It consumes time.

Always lock your brakes when skidding. It makes the job more artistic.

In sloppy weather drive close to pedestrians. Dry cleaners appreciate this.

Never look around when you back up; there is never anything behind you.

Drive confidently, just as tho there were not eighteen million other cars in service.
