THE NEGRO MOTORIST GREEN BOOK

ESTABLISHED 1936
WILLIAM H. GREEN
EDITOR
JOHN C. DILLARD
CIRCULATION MGR.

INTRODUCTION

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon.

There are thousands of places that the public doesn't know about and aren't listed. Perhaps you might know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists.

You will find it handy on your travels, whether at home or in some other state, and is up-to-date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

When you are traveling mention "The Green Book" so as to let these people know just how you found out about their place of business. If they haven't heard about This Guide, tell them to get in touch with us.

If this Guide is useful, let us know, if not tell us also, as we appreciate your criticisms.

If any errors are found, kindly notify the publishers so that they can be corrected in the next issue.

Published yearly in the month of April by Victor H. Green. Executive & Advertising office at 938 St. Nicholas Ave., New York, N. Y. William H. Green, Editor; John C. Dillard, Circulation Manager. Advertising Office at 938 St. Nicholas Ave., Telephone ED. 4-3425.

Dear Sir;

It is a great pleasure for me to give credit where credit is due. Many of my friends have joined me in admitting that "The Negro Motorist Green Book" is a credit to the Negro Race. It is a book badly needed among our Race since the advance of the motor age. Realizing the only way we knew where and how to reach our pleasure resorts was in a way of speaking, by word of mouth, until the publication of "The Negro Motorist Green Book." With our wishes of your success, and your earnest efforts. We earnestly believe "The Negro Motorist Green Book" will mean as much if not more to us as the A. A. A. means to the white race.

Respectfully Yours,

Wm. Smith.

Chas. A. R. McDowell
Collaborator
United States Travel Bureau

A daylight ride on a Greyhound bus from New York to Washington does not present any scenic wonders, yet it pays to keep one's eyes open. Our strongest impression arises from the contrast between the beautiful, flower surrounded plants of General Motors and Burnett's Gin at Linden, New Jersey; and the immense drab, abandoned industrial plants along the Delaware River at Marcus Hook and vicinity where thousands of workers once labored and lived, but never saw any beauty of any sort.

Unless absolutely necessary, the traveler should never pass through Washington without stopping, if for only a few hours. This procedure always leaves us "soothed and sustained." At this time to such an extent that we could leave at midnight for an eighteen hour ride to Greenville, S. C. which took us through the heart of the tobacco country, and the cities of Richmond, Danville, Winston-Salem and Charlotte. Our object in visiting Greenville was to meet with the Colored Business and Professional Men's Club. This organization is thoroughly interested in creating a nation-wide interest in travel. The result of this meeting was very encouraging. There was a large attendance and close attention was paid to our remarks. A number of questions were asked, which brought on a hearty discussion. Greenville lays claim to being the Textile Center of the South. We note, with special interest the Negro community, the Hight School, the excellent hospital facilities and many beautiful homes, owned by Negroes.

The 164 mile ride through well terraced farm lands and peach orchards to Atlanta, was highly enjoyable. Atlanta is entered through the suburbs of Decatur and the beautiful Ponce de Leon Avenue. Decatur Street in Atlanta, Beale Street in Memphis, and Yamacraw in Savannah have been made famous by Negroes. It was our good fortune after many years to be able to visit Decatur Street on Saturday night, don't miss this, if you ever go to Atlanta. Atlanta is the center of high education for Negroes, and here is located the Atlanta Daily World, the only Negro daily newspaper in the United States. After a good night's rest at the Butler Street Y. M. C. A., we began our Sunday ride 294

miles on the old Central and Georgia Railroad (over General Sherman's route to the sea).

At Savannah we visited Irene Mound, about $5\frac{1}{2}$ miles above the City on Pipemakers Creek. For over two years, the Government has been uncovering this pre-historic Indian village. This work is being done under the direction of Dr. Hooten of Harvard University and Dr. Caldwell is the archaeologist in charge. A laboratory and a museum have been established at this site and a large number of Negro W. P. A. workers is employed. The Mound is in a dense growth of live oakes and the scenery is superb.

"Savannah has been acclaimed by famous world travelers, as one of the most beautiful cities in the world and its rich background and heritage of history, embracing many events notable in American annals, provide it with many hollowed spots of deepest interest to the visitor." On route 17 just south of the City, of unique interest, is Cocoanut Grove. Here we find a modern tourist camp, amusement pavilion and the beautiful home of Mrs. Mamie Cox, maid of the late Miss Marie Dressler, famous in the movies. All of this was provided through funds left to Mrs. Cox by Miss Dressler, with the stipulation that she would build a suitable place for the comfort of Negro travelers.

A little further back, we referred to Yamacraw in Savannah. Here is located a magnificent old colonial building, First Bryan Baptist Church, founded in 1788, and one of the oldest Negro churches in North America. According to information furnished by the pastor, this Church is soon to become the focal point around which the new governmnet housing project is to be constructed.

Anyone visiting Savannah between April 1st and October 1st, should by all means take the ride on the steamer among sea islands and through the various inlets to Beaufort, S. C. The round trip consumes about 12 hours. Most of the scenery is wild and primitive, and all of it is beautiful. The cost for the round trip is one dollar. Soon after boarding the steamer for this trip, we noticed a Colored man, exercising much authority. Crossing Port Royal Sound (the only rough water on the trip) looking up at the pilot house, we noticed this man at the wheel, looking ahead and calmly smoking his cigar, a sight seldom seen elsewhere. Negroes have long been associated with navigation in South Carolina waters.

Here in Beaufort is a large house, formerly the home of Robert A. Small, (Negro) the famous blockade runner of the Civil War. At Fort Pulaski National Monument, at the mouth of the Savannah River, we find what is probably the largest fig tree in the world. It has a spread of 170 feet. It is 32 feet high and the yearly average production is 50 bushels of figs. Thirteen miles south of the City of Savannah is located the United States Department of Agriculture Bamboo propagation farm, and a short distance further at Ways Station, Georgia, Mr. Henry Ford has established his 70,000 acre model community. We learned of the friendly interest he has shown in Cocoanut Grove.

Speeding north through Dixie, you do not open the coach windows now for a breath of air and an eyeful of cinders. On a curve, every now and then, we could glance ahead through the clear glass and see the Seaboard's huge yellow diesel "on the job". How different!

HOW TO KEEP FROM GROWING OLD

Always race with locomotive to Crossings. Engineers like it; it breaks the monotony of their jobs.

Always pass the car ahead on curves or turns. Don't use horn, it may unnerve the fellow and cause him to turn out too far.

Demand half the road—the middle half. Insist on your rights.

Always speed; it shows them you are a man of pep even tho an amateur driver.

Never Stop, look or listen at railroad crossings. It consumes time.

Always lock your brakes when skidding. It makes the job more artistic.

In Sloppy weather drive close to pedestrians. Dry cleaners appreciate this.

Never look around when you back up; there is never anything behind you.

Drive confidently, just as tho there were not eighteen million other cars in service.
